

VISHWA ANANDH

PRODUCT DESIGNER

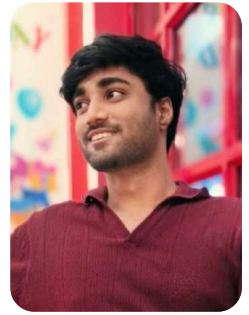

Product designer with 5+ years in enterprise SaaS and AI-native systems, owning multi-role workflow platforms end to end for **650+ users across 5 organisations**. I also independently designed, built and deployed a live AI monitoring platform with an LLM chatbot I trained myself.

Work Experience

UI/UX Designer

Maitsys

July 2024 – Present

- Sole designer across **7 enterprise products** (web & mobile), owning research through developer handoff for platforms serving **650+ users across 5 client organisations**.
- Rebuilt Getherly's onboarding from **30 clicks to 5** — an **83% reduction**, removing the platform's largest setup drop-off point.
- Built and maintain the Maitsys design system — **30+ components across 6 products** — so new screens ship from existing, tested parts.
- Ran **10+ usability tests and user interviews**, feeding findings into flow and information architecture decisions before build.
- Embedded with **20 engineers and 4 PMs**, turning ambiguous requirements into specced, buildable flows and presenting direction to the CEO.

Selected Products

- Project.AI** — Timesheet, Projects & Payroll (Web & Mobile): role-based timesheets and automated payroll used by **4 organisations and 500+ employees**, replacing manual spreadsheet tracking.
- Pappa.ai** — School Management (Web & Mobile): unified attendance, fees, communication and notifications for parents, teachers and admins, **live with 100+ users**.
- Getherly** — Family Social Network (Mobile redesign): multi-age accessibility and granular privacy controls to **WCAG 2.2 AA** standards.
- LobbyLink** — Visitor & Employee Management (Web): check-in flows, digital badging and analytics for **50+ users**, replacing paper logs.
- Also shipped **NC STEM Academy** (research tracking), **Getherly Workspace** (enterprise intranet) and **Recycle Contamination Log** (sustainability analytics).

Product Designer & Developer

Independent Products

2025 – Present

- PulseCX** — designed and **independently built and deployed** an AI-native enterprise monitoring and incident-response platform linking API and infrastructure health to real customer-journey impact. *Deployed June 2026.*
- Trained and integrated an LLM diagnostic chatbot** that surfaces probable root cause in plain language, collapsing alert-to-hypothesis into one conversational step.
- Built the full production front end with AI-assisted development as a non-developer.
- Enterprise HRMS** (*in progress*) — leading UX architecture for a platform scaling from **500 to 50,000 employees**, covering org modelling, role hierarchies and approval automation.

Freelance Brand & Digital Designer

Self-Employed

2019 – Present

- Sole designer for **5 clients across 4 industries** — granite manufacturing, F&B, IT startups and e-commerce — delivering brand identity, guidelines and shipped web and app UI.
- Ran engagements end to end with founders, from discovery to launch.

Education

MASTER OF COMPUTER APPLICATIONS

KLN College of Engineering, Pottapalayam

2021 – 2023

BACHELOR OF COMPUTER APPLICATIONS

Hindusthan College of Arts and Science, Coimbatore

2018 – 2021
