Work Experience

UI/UX Designer

Maitsys

July 2024 - Present

Product Experience Summary

- Pappa.ai – School Management (Web & Mobile)
Designed seamless UX for parents, teachers, and admins covering attendance, fee payments, communication, and notifications. Built intuitive admin dashboards and smart alerts for events and dues.
- NC STEM Academy – Research Program App (Web & Mobile)
Designed student & mentor dashboards for research tracking, lab scheduling, evaluations, reports, and certification workflows with secure communication and milestone analytics.
- LobbyLink – Visitor & Employee Management (Web)
Created check-in flows, digital badges, activity logs, and analytics dashboards. Designed customizable badge/event systems with simplified UX layouts.
- Project.AI – Timesheet, Project & Payroll App (Web & Mobile)
Designed timesheet workflows, project roles, automated payroll, real-time analytics, and reporting modules for web and mobile.
- Getherly – Family Social Network (Redesign) (Mobile)
Redesigned the platform for multi-age accessibility, privacy-based sharing, Limelight video hub, chats, family tree, and secure access control.
- Getherly Workspace – Enterprise Social Intranet (Web & Mobile)
Designed a workplace social platform with community spaces, project channels, engagement tools, and role-based visibility.
- Recycle Contamination Log – Sustainability Tracker (Web)
Designed issue reporting flows, location dashboards, educational insights, and analytics for recycling compliance.
